

## A NOTE FROM A DONOR

“I am grateful for your many contributions to the success of our community. I served as a Microsoft Loaned Executive to United Way years ago and first learned of Friends of youth during our orientation. I had toured Griffin Home and more recently, I have volunteered at Friends of Youth facilities during Microsoft’s annual Day of Caring.

I support Friends of Youth because I’m incredibly impressed with the work that the organization is doing. I vividly remember hearing one of the kids talk about his struggle to overcome the abuse he suffered at home and abuse he inflicted on his younger sister. His courage was overwhelming. I thought that any organization that helped and supported a kid like that was worthy of my support.

You have-and will continue to have-my support.”
