

VOLUNTEER SPOTLIGHT

Name: Serena (Software Company)

Volunteer Project: Paint a Home

Project Site: Youth Haven, Bellevue Emergency Shelter

Serena's team have been unwaveringly coming back with their paints and brushes to help make our Bellevue emergency shelter a better home for the young teens who live there.

Comments: *"We are so excited to have Serena, such a civic minded company, adopt our transitional living facility in Bellevue. Thanks to all their efforts, the house feels more like a home to the young girls who stay there and more importantly, they realize there are people out there who genuinely care!"* - Cheryl Schnelle, Volunteer Coordinator
